Approval process for the construction and for the operation of the high-pressure gas pipeline "Nord Stream" through the Baltic Sea.

Alteration to the course of the route within the German EEZ and 12 nautical mile zone and alterations and alternatives outside German waters.

Dear Sir / Madam,

Within the context of the effect upon our interests, no objections arise in relation to the proposed alteration to the course of the route within the German EEZ and 12 nautical mile zone or to the alterations and alternatives outside German waters. From our point of view, the altered course of the route does not necessitate any amplifications or alterations to the investigation framework as already laid down. In regard to the changes proposed in the area of the German EEZ, from the point of view of our interests, the repeat of the scoping procedure can be dispensed with.

Yours truly

*(signed)*

Horst Friedrich
