**Approval procedure for the construction and the operation of
the high-pressure natural gas pipeline "Nord Stream" through
the Baltic Sea**

Dear Sir / Madam,

The interests of the University and Hanseatic City of Greifswald are not affected by the alteration to the course of the route within the German EEZ and 12 nautical mile territorial waters zone or by alterations and alternatives outside German waters. From our perspective, no supplement or alteration is required to the survey framework already laid down.

Yours truly,

By order,

Peter Lubs
